Office times: Mon - Fr 10:00h - 15:00h  
and by appointment

The project Wohnraumausstattung (room furnishing) is a networking project in the districts of Bremen: Hemelingen, Vahr and Osterholz. We primarily support refugees who leave the Übergangwohnheim (temporary accommodation) to move into their very first own home. Our services also address people with low income and welfare recipients.

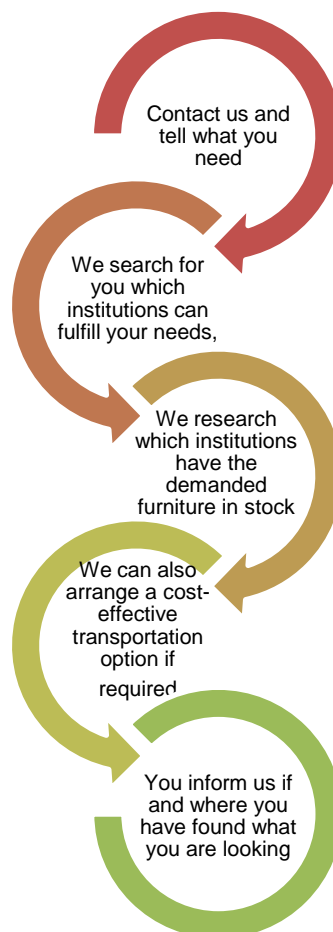

- Specification of needs: used furniture and household items?
- Inquiry: where and how to get what?
- Recommendation: thrift stores, charitable furniture warehouses, recycling stations. We accompany people to these institutions if necessary.
- Advertisement of donated furniture and household items
- Establish contact between donors and Institutions
